

MODULAR BANK & FINANCIAL BUILDINGS

Transportable, High-Security Modular Office Systems

As your bank or financial institution is looking to expand and saturate new audiences, it's crucial to have an equal balance between a cost-effective and high-quality building.

At MPA Systems, we specialize in temporary and permanent bank buildings as well as structures needed for disaster relief.

Modular Office Systems...

- Meet Strict Deadlines
- Are Temporary or Permanent
- Customized to Your Needs

Construct Differently By Choosing Modular

~~BOXX Modular doesn't specialize in financial institutions.~~

- ↳ MPA Systems is a BOXX Modular company that has extensive experience in designing and executing temporary modular financial and bank buildings.

~~Modular buildings are mass-produced and are not customizable.~~

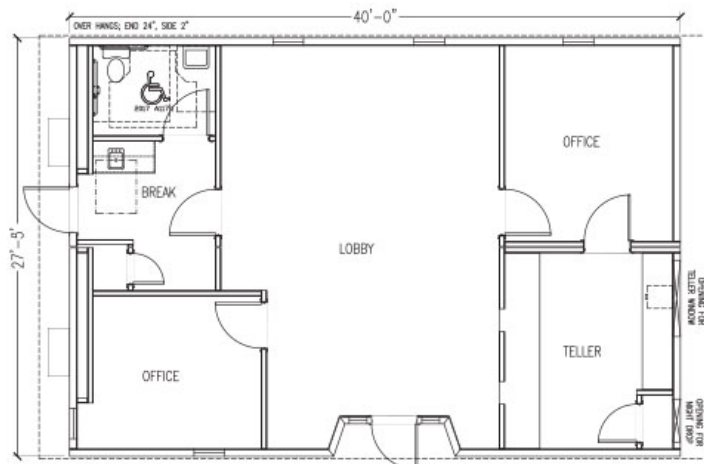

- ↳ MPA Systems can customize your building to financial industry needs, including check writing stands, enclosed offices, and a night depository with a receiving safe.

~~It's too much of an investment.~~

- ↳ You can select a temporary or permanent building and can lease it with flexible payment options.

Modular Financial Institutions Leasing Options

Finance Lease with Buyout	True Lease	Building Purchase
<ul style="list-style-type: none">• Lower upfront costs• Locked into the initial rate• Choose buyout amount	<ul style="list-style-type: none">• Low monthly payments• High level of flexibility• Keep the building for as long as you need	<ul style="list-style-type: none">• Purchase building outright• Fast & efficient option• Highest upfront cost

Banking Services with Modular: Cape Coral Busey Bank

The Problem

- ↳ After a natural disaster in Cape Coral, Florida, Cape Coral Busey Bank required a new building.

The Key Decision Factors

- ↳ As part of their Business Continuity Plan, they needed a temporary structure that was ready as quickly as possible so Cape Coral Busey Bank could open up and continue its services.

The Modular Solution

- ↳ MPA Systems specializes in disaster recovery for financial institutions and was prepared to quickly install a temporary solution for Cape Coral Busey Bank.

The team utilized a “plug-and-play” bank building and was shipped and installed in a total of 3 days. The building was equipped with a deal drawer, drive-up window, night depository, phone system, security system, teller pedestals, and furniture.
